Dear Adrian,

As a key element of the core policing function of protecting the public, Northumbria Police continually look to engage, build and enhance relationships with all parts of the community which it serves, the business community no less than other sections of the community.

I am therefore able to reaffirm to you and your organisation that Northumbria Police is very happy to continue to work with you in supporting the aims and objectives of the NE1 BID albeit within the constraints of its duties and powers and within the resources available to it.

Northumbria Police will continue to engage with all NE1 communities in a positive and effective way to ensure that we provide the best policing service to those communities making full use of the resources available to us and in this way play its part in maintaining the well-being and prosperity of all NE1 businesses, stakeholders, as well as residents, visitors and members of the public.

Yours sincerely

Neil Hutchison
